- Marital Status : Single
- Nationality : Indian
- Gender : Male
- Language Known : Hindi and English

---

## SKILLS

- HTML, CSS, Javascript, React , Typescript, Redux , Git and GitHub

---

## PROJECT

- Learning Management System**  
This project showcases my React development capabilities gained through collaboration with a mentor. It implements a comprehensive Learning Management System (LMS) with a focus on user experience and administrative control.

### FEATURES:

#### **Robust User Authentication :**

Secure sign-up, log-in, password change, and email-based password reset processes. Implemented using industry-standard authentication practices for user data protection.

#### **Comprehensive User Management :**

Users can create profiles, edit details, and view profile information for personalized learning experiences.

#### **Course Management System :**

Administrators have complete control over course creation, editing, and deletion.

#### **Detailed Lecture Management :**

Administrators can add, edit, and delete lectures within courses.

#### **Subscription Model :**

Users can enroll in courses by purchasing a 1-year subscription. Secure payment integration ensures revenue generation and user access control.

#### **Interactive Lecture Dashboard :**

Users can access enrolled courses, play video lectures, and view detailed lecture descriptions for enhanced learning engagement.
